Shorts About Service Men

* * * * * * * *

What the Boys are Doing Here and There

An Associated Press dispatch from "Somewhere in New Guinea" reveals that one knife in a truckload arriving there from America, was marked for special delivery. It was a knife made from the bayonet he used in the first World War by Charles Pierce who attached a note saying :"Please see that my boy gets this knife, made from my bayonet from the first World War. He is in New Guinea fighting now." First Lieutenant Geo. Shatzman, special service officer, said the weapon was forwarded to Pfc. Charles E. Pierce, Jr. at a New Guinea base.

Mrs. George Waters received a letter from her son, Corp. Orlan Waters that he will be honorably discharged from the army within a week. He has been stationed at San Francisco and an old injury to his hand is responsible for the discharge. The hand was badly scalded and the fingers grew together. A year ago he was operated on while in the army but the correction was not made.

Signalman Second Class Robert Leamon, member of the crew of the ill-fated U.S.S. Cruiser Helena, returned this week to greet friends and relatives and expects a 30-day leave before returning to duty. He has five stars on his campaign ribbon to indicate he participated in five major engagements in the Pacific.

Bill Cassidy of Auburn, grandson of Mrs. James McIver, and a former Truckee boy, is reported to have arrived in the European theater of war. He is in the technical branch of the air corps.

Bud Zorich, Byron Johnson, Carl Kielhofer, Fred Hughes and other local boys in that hardy infantry outfit now have the familiar APO attached to their address. We don't even guess where they are but we'll bet they are doing a good job.

James Allen Morrison, son of the popular former Neveda County Selective Service clerk, Merle A. Morrison, has completed a month's instruction at the Navy's pre-radio school and will be soon assigned to active duty as a radio specialist.

Pfc. Phil Kearney reports from New Guinea that he has returned from a one-man expedition far into the wilds of that wild island. At the time he wrote in June he was camped with a group of Aussies and while he found them genial, he said the chow was a bit more primitive than that which Uncle Sam feeds. Phil said he feels himself especially favored with so many nice cheerful letters from friends and relatives at home. Some of the boys become quite irritated, he wrote, when they receive grumbling letters about rationing and shortages, but they usually either laugh it off or retort to "You ain't seen nothing."

Two Truckee boys passed each other here this week on trains, Gino Giovannoni air corps private heading east for technical training in Nebraska and Sea Bee Leo Cardinal going west after completing his training in Virginia. The latter expcets to be home in a few days on leave.

Sgt. John Gracek of Fort Sumner, New Mexico, has a two weeks leave and is spending some time here visiting among friends.

LOOSE SHOE STAMPS FOR MAIL ORDER ONLY, WARNS OPA

Changes in the shoe rationing regulations which emphasize the fact that loose shoe stamps detached from ration books may be used only to make bona fide mail order purchases were announced today by C. B. White chief clerk of the local ration board.

Public attention will be directed to this requirement by a notice which dealers must post by September 1.

In cases where local rationing boards decide that shoe stamps were detached from ration books through mistake or accident, provision is made for their exchange for special Shoe stamps.

AMPLE ANTI-FREEZE FOR WINTER SEEN

The War Production Board has assured the nation's motorists of an ample supply of anti freeze for next winter's driving with an order releasing permanent type radiator solutions for 12 western high altitude states including California and Nevada.

Forty-five million gallons of ethyl alcohol have been allocated for civilian use in the anti freeze mixtures for next winter and WPB said that supply will be adequate for motorists in the 36 states not affected by the permanent type order.

RAISE IN PRICES OF EGGS IS PERMITTED

"Don't blame your grocer if the price of eggs increases gradually between now ond November," the Office of Price Administration told the housewives today as a schedule of permitted increases was issued retailers. Egg production drops during the fall months each year and, following price trends of previous years, OPA is allowing an adjustment of prices which will run about one cent per dozen at one week and two week intervals.

Glad to Return—

Mr. and Mrs. H. O. Anderson and children returned to Truckee from Portola where they were living and are glad to be home.

OFFICERS MAKING PROBE OF THREE NABBED AT LAKE

Sergeant B. W. Reynolds of the state highway patrol announced today that an investigation is being made by ofifcers of two states to determine the connection between William Monical, 24, in custody in Auburn, following a variety of charges by Denver police, and William Ernest Flanders, 19, and Jack McWiggins, arrested in Nevada.

Flanders of Detroit, Michigan, who has been living at Tahoe this summer and who, according to charges deserted from the marine corps, was captured by Reynolds and other state officers near Brockway this week after, patrolmen said, he had driven an automobile at speeds ranging from 80 to 90 miles an hour.

McWiggins, a Reno bartender, was in the car, which officers said had been stolen in San Diego. McWiggins had two revolvers in his possession. Officers said these were identified as property of Monical, who was also taken to Auburn.

Reynolds who arrested Monical said he was wanted in Denver on robbery, auto theft, burglary and receiving stolen property charges and as a patrole violator.

Flanders was booked in Reno on an auto theft charge.

'HIT THE ICE' HAS DOUBLE PLEASURE AT LOCAL THEATER

When "Hit the Ice," starring Abbot and Costello appears at the Donner Theater here Sunday, August 22, it will prove of more than passing interest and good entertainment to scores of Truckee, Lake Tahoe and Donner Summit residents. The reason for this is that many local people were employed in the production, a large part of which was filmed on Donner Summit last winter. Manager Vern Shattuck says the picture, aside from the local angle, is first class entertainment and should prove a big drawing card from that standpoint alone.

TWO HUNTERS HERE TO STALK ANTELOPE

Two Truckee hunters were among the 500 whose names were picked in the 'legal lottery to determine who among more than 3,500 applicants will be permitted to hunt antelope in Modoc and Lassen counties when the season opens September 11.

E. L. Loynd and Charles Brunk are the two local men who were selected and they are planning on making the trip together.

LOCAL CHILDREN AT CHURCH CAMP

Those attending the Methodist Christian Adventure Camp this year at Lake Tahoe are Janice Foster, Gertrude Waters, Everett Piper, John Brandlin, Jr., and Lois Brandlin. A faculty of ten teachers and workers is in charge.

TAX RATE LOWER IN NEVADA COUNTY

NEVADA CITY, Aug. 19.— The Nevada County budget placed on file last week by the board of supervisors reveals that the amount to be raised by taxes this year is $200,799.56 as compared with $262,645.64 last year.

The tax rate has been reduced from $1.60 to $1.50 per $100 assessed valuation.

NEW TAX RATE FOR PLACER REVEALED

AUBURN, Aug. 19.— Supervisors of Placer County will hold a public hearing tomorrow on the tentative budget for 1943-44. It provides a tax rate of 70 cents on the $100 assessed valuation, a reduction of seven cents from last year.

This does not include the taxes on the various schools.

HARD TIMES PARTY PLANNED BY CLUB

The Wyethia Women's Club is planning to have a "hard-times" party with old fashioned dancing Saturday evening, August 28. The place for the party has not been decided. Mrs. M. C. Hayes has been named chairman for planning the affair.

IT PAYS TO ADVERTISE

My Place In The Sun

By CORP. DOUG BARRETT

(Excerpts from letters from some where in the Alaska Theater).

The meals here on the whole are fair to passing, with breakfast taking top honors with me. Every morning we get freshly fried eggs, done in a manner that strikes our fancy. We stand in line back of the cook and as our turn comes, we pick out a pair that appeals to our eyes. If our conscience bothers us and we can't stand the yolks staring at us, the cook will turn them over. These eggs are garnished with salt pork fried and may be preceded by tomato juice. To finish the meal, if your appetite holds up, there are corn flakes or hot mush. A lot of the men take "black death"— a rather prosey description of the coffee—with breakfast In the main, I find the army food, while not like mother used to make, very good.

You asked me some time ago what I thought of a Donner centennial celebration. It seems to me that that is a question that requires no answer. To my notion, it is an idea that any businessman on the Donner Trail would be foolish to pass by. I only hope that I will be home by that time. To be brief, I am for it 110 per cent. I see in it the beginning of a whole line of celebrations. The Donner Party, the discovery of gold in California and the admission of the state into the union all fall beteen '46 and '50.

Tonight we heard the commentary on Marshal Bagdolio's reply to Prime Minister Churchill. Somehow or other this man seems to be what the Italian people are looking for in a leader. He is logical if a bit obnoxious and I hope that his advent comes too late to inspire the Romans to gory battle. In his hands lies the power to save much blood-shed, if he will— and I hope he will.

Cpl. Jack Jessup and I just had a rousing discussion with Sgt. Gascon on the relative merits and beauty of the Golden State and the Empire State. We finally came to the conclusion that any place that looks like home was a beautiful spot to be. Of course, Jessup and your one-man chamber of commerce up here won the argument to our satisfaction.

Swanee's Service Letter kind of puzzled me this week. How could she hope to get just a little tan?

LADIES NIGHT FOR LIONS IS PLANNED

Members of the Truckee Lions club their ladies and guests will go to Cal-Vada Lodge on Lake Tahoe tonight for a dinner-dance party, it is revealed in notices sent out by Secretary W. M. Englehart, Sr.

GARDENERS URGED TO PRESENT PLANTS

Mrs. Thomas Buell, president of the Wyethia Club, is urging all local people to take their entries for the vegetable and flower show to the Wyethia clubhouse early today for the exhibits this afternoon and evening.

CHINAMAN INJURED BY CAR ON HIGHWAY

Chin Gam, 45, Chinese cook at Emigrant Gap, suffered minor injuries and shock last week when he walked into the side of a moving automobile near there. He is employed by the Thelkeld Commission company of Sacramento.

FORMER FORESTER DIES AT HIS HOME

Madison B. Elliott, former forest supervisor of the Tahoe National Forest at Nevada City, died last Friday at his home in Nice, Lake County.

On Vacation—

Mrs. A. D. McCullough left Wednesday for a months visit with relatives in Indianapolis.

Takes Vacation —

Miss Ida Stewart, assistant postmaster, is enjoying a two weeks vacation. Miss June Van Sandt is the substitute clerk.

Returns Home—

Mrs. Elizabeth Bavier returned on Sunday from a week's visit with Mrs. Glenn Keenan in Sacramento.

Southern Pacific Will Remove Its Tahoe City Line

Adequate Roads, Busses to Replace Trains In Post War Period

The Southern Pacific Company announced this week that it has applied to the Interstate Commerce Commission for authority to remove the tracks of its Lake Tahoe branch line extending from Truckee to Tahoe, a distance of 14 miles. The company will continue to take care of its passenger business by bus from Truckee to Tahoe as is now being done, it was announced.

Construction of modern, paved high ways serving the Tahoe area has diverted traffic from this line and further, the application points out, the abandonment of the branch will enable recovery of track materials vitally needed for the company's wartime operations. Through rail service to Lake Tahoe has not been provided since 1941, because of the transportation emergency created by the war.

"The Lake Tahoe branch line cannot compete with bus and private automobiles on the all-year highway serving the Lake," said F. S. Mc Ginnis, vice president in charge of passenger traffic. "Our traffic to the lake is highly seasonal and rehabilitation of the line every spring is costly. Furthermore, track materials involved could now be put to much greater public use in the war emergency.

"After the war," McGinnis said, 'the Southern Pacific will park Pullmans at Truckee during the resort season and by arrangement with the Greyhound bus line will provide for connecting motor bus service to the lake with the most up-to-date equipment.

The Lake Tahoe branch has been operated by Southern Pacific since 1925 and was originally a narrow gauge line owned by the Lake Tahoe Railway and Transportation company from which the property was acquired.

OLD STYLE B, C GAS BOOKS NOT VALID AFTER AUGUST 31

Concurrently with the announcement that gasoline rations in the Middle West would be cut 25 per cent at the direction of the petroleum administration, the Office of Price Administration stated that all old-style B and C gasoline ration books will become invalid on August 31. The action is taken to halt the use of invalid coupons and to nullify counterfeit coupons which may be in circulation.

Each stamp in the new book reads "Mileage Ration B (or C)." The old coupons read 'Permits delivery of one B (or C) unit of gasoline at time of sale. Office of Price Administration."

Persons having old-style books may surrender them in person or by mail to local ration boards for exchange after August 23, the spokesman said. Expiration dates and the number of coupons will remain the same.

BLISTER RUST TO BE GIVEN SPECIAL STATE ATTENTION

SACRAMENTO, Aug. 19.— (UP)— State Forester Merritt B. Pratt reports that blister rust control in northern California is an important step in forestry work that should be given special attention.

The systematic method used by the blister rust control crews in lining out area for ribes eradication work is the first part of ocntrolling the section of land. Most members of the crews are high school boys, under general supervision of regular staff members of the federal agency supervising the work. The boys live in tent camps. The crews crisscross the work unit until the entire area has been thoroughly covered. Each man is equipped with a special grubbing tool needed in eradicating the deep-rooted ribes which kill the pine trees

As a general rule the ribee are reduced to a few small scattered bushes per acre and kept suppressed to that low level and effective blister rust control is assured. Some infection will, of course, likely result from these few ribes, but insufficient to cause material pine damage.

To Enjoy Dinner—

Members of the Truckee Eagles Lodge tonight will enjoy a stag Italian dinner at Moro's restaurant.

.: Sun :. Beams

by WALTER M. BARRETT

Duties of the highway patrolman are not always issuing tickets, checking on wrecks and guarding the roads in their area. Frequently they assume tasks which, while perhaps not in line of duty are of great importance. For instance Sgt. Reyonlds spent a lot of time recently assisting with efforts to save the life of a man drowned at Boca reservoir. The patrolmen administer first aid in many cases and rush accident victims or sick people to doctors. We are inclined, too often, to think of them as speeder chasers, but a bit of thought will reveal they are doing much more than keeping the rules of the road in order.

We regret most sincerely that there is nothing to report on the recent report that the water rights of Donner Lake have been sold with the privilege of dredging the outlet to form a possible canal of the beautiful historic body of water. No satisfaction was contained in communications from our natural resources commission and despite the fact that the local chamber of commerce is attempting to gain a foothold for a fight to prevent defacement of the lake, it is most difficult to find a place to start. The state chamber is promising to investigate and it may be possible to at least have some knowledge of the situation in the near future.

Senator Mayo of Calaveras county has issued a startling statement in one of his publicity releases in his campaign for election to Congress. There are 232,500 federal employes in California, the senator said, in pointing out the top-heavy bureau system, as compared with some 30,000 state employes. That means only one thing—the federal government has taken on far more governmental power in states than is healthy under our democratic system. We can appreciate the necessity for huge numbers of federal employes in time of war, but the overwhelming majority over local government administrators is appalling.

FIREMAN KILLED IN MOTORCYCLE CRASH NEAR HERE

Charles E. Carlisle, 22, employed as a fireman by the Southern Pacific at Sparks, was fatally injured last Thursday at noon when the motorcycle he was driving failed to negotiate the curve at Hirschdale and he was thrown against a rock.

Sergeant B. W. Reynolds of the state highway patrol, who investigated, said Carlisle died shortly after reaching a Reno hospital.

Harry D. Burris, 17, also of Sparks suffered concussion when he was thrown from the vehicle.

FIRE DESTROYS ROOF IN LOCAL ALLEY

Fire last Friday afternoon destroyed the roof on an old building in the rear of Tony's Coffee Shop. Sparks from a nearby trash fire are believed to have blown upon the roof to set the fire. The fire department and the forest service truck arrived to prevent spread of the flames.

FEATHER PROVIDES ROTARY PROGRAM

Roy A. Feathers provided an interesting program for members of the Rotary Club Monday night when he showed a number of Koda-slide pictures taken on his recent trip through the Grand Canyon, Zion National Park and Bryce Canyon. He also exhibited several local pictures.

Fourteen members were present and visiting Rotarians included Hal M. Atkinson of Oakland, Otto L. Fox and Dr. W. Miller of Auburn and C. Don Huff and E. H. Zebol of Woodland. James Garibaldi was also a guest. Dee Bowen presided.

TELEGRAPHER IS SOUGHT IN THEFT

Constable N. F. Dolley yesterday announced that A. J. Phillips, 60, a telegrapher employed for the past few days at the Southern Pacific office here, is being sought for the theft of approximately $50 missing from the cash drawer at the depot. Phillips was employed at night and Wednesday morning he was missing with the cash, Dolley was told.

Driver of Death Car at Tahoe Faces Hearing

Second Man Badly Hurt In Tragedy Near Tahoe Tavern

Word from Auburn says that Charles Hamilton Raven, Jr., Sacramento tractor and implement dealer, was released on his own recognizance by order of District Attorney Lowell L. Sparks pending completion of the investigation into the traffic death at Tahoe Tavern last Thursday night of Guido Baldocchi, 24, son of Mr. and Mrs. J. C. Baldocchi of Antioch.

Raven was held in the Truckee jail after the accident and removed later to Auburn.

Sergeant B. W. Reynolds and Patrolman Earl Crane of the state highway patrol, said Baldocchi was hit by a car driven by Raven while the former was working on his motor near the Tavern shortly before midnight Thursday. Paul Green a companion of Baldocchi was seriously injured and taken to a Reno hospital.

Baldocchi and his wife and small child, accompanied by Green had been guests of the dead man's parents at Timberland for several days and planned to return home the day after the tragedy. Both men's wives were in the car at the time of the crash.

Witnesses said Baldocchi's body was hurled more than 30 feet. His body was badly broken and one leg was severed. Constable Harry Johanson brought Raven to the Truckee jail.

The inquest will be held tomorrow at Auburn. Mrs. Mary Roquette who witnessed the accident has been called to testify.

FIVE BOY SCOUTS RECEIVE AWARDS IN LOCAL SESSION

Five members of the Truckee Boy Scout troop last Friday were presented with their coveted tenderfoot awards which proves that they have completed the preliminary work and are now full fledged Scouts with a fine opportunity to progress in the work under their scoutmaster, Reuben Swett.

Those receiving the awards were Harvey Hocker, Bert Weeden, Billy Campbell, Martin Oroz and John Brandlin.

MRS. ENGLEBRIGHT PLEDGES SUPPORT TO FOREST AREAS

Mrs. Grace Englebright, candidate for congress from this district at the special election August 31, today said that if elected to fill the vacancy caused by the death of her husband, she will continue his policies of protecting the public domain and the natural resources for the benefit of the people.

"My late husband played a large part in building the national parks and forests to their present position," she said. "He served on the congressional committees which drew up legislation aiding and promoting their growth and expansion of their activities. He called the national forests 'the poor man's playgrounds' and did everything he could to promote their expansion and development as recreational centers.

"At the same time he saw that the forests were not closed to industry and protected the rights of miners and others using the forests commercially. He backed the forest service in its policy of treating timber as a crop and permitting the lumbering on a regulated scale, so that the industry would be permanent and the lumber towns would not die. He also favored payment of moneys to the counties in lieu of the taxes they lost when private lands were taken over by the national forests. Many of the counties in the second district have large areas within the national forests and he felt these counties should be compensated for lost taxes on the land, so that the other taxpayers would not have to carry a disproportionate burden."

Mrs. Englebright said projects to preserve the natural resources of the district and use them for the benefit of all the people would receive her unqualified support.

In Hospital—

Little Tommie Dolley was taken to the hospital in Reno last week to correct an infection in his leg which resulted from a blister on the heel. He is reported much improved.

Your electric water heater is built to give you many, many years of carefree service. It will, however, last longer if not abused.
One abuse of an electric water heater is raising water temperature higher than 140° F. For general household use the thermostat on the water heater should be set between 120° F and 140° F; 130° F is usually satisfactory. Excessive water temperature is a cause of limed-up pipes and tank corrosion.
Check any dripping faucets, especially hot water faucets. A new washer will stop waste of water and electricity. A faucet dripping 90 drops a minute will waste 310 gallons of water a month.
Keep your
ELECTRIC
WATER HEATER
in use...
it means less work for you
Care for your water heater like a faithful old friend. Use it wisely and efficiently to guard your home in health and cleanliness. It stands ready any hour day or night for hot medicinal drinks or applications and to speed up soap action for washing, scrubbing or cleaning. It will save you time and work and money every time you use it. Should repairs be necessary, have them done at once.

BUY WAR BONDS FOR VICTORY

Politically Speaking

By LLOYD LAPHAM
(United Press Staff Correspondent)

SACRAMENTO, Aug. 19.— (UP)— California Republicans are gathering momentum for a big push at the next natioanl convention, would like to have Governor Earl Warren spearhead the attack, on his own terms and possibly with himself as a candidate.

However, Warren, who is very busy being governor of a state up to its neck in the war effort, has made it plain that he has no presidental or vice-presidental ambitions, yet. On his recent trip to Cleveland for the conference of governors he told the newspapermen no to both questions.

But the California Republican Assembly, at it sexecutive meeting in Santa Barbara last eek, adopted a resolution asking the governor to head a Warren-instructed delegation to the GOP convention.

The assembly reported that their resolution was based on Republican sentiment throughout the state, claiming definite Warren trends in 15 out of 17 Congressional districts sampled.

Some assembly representatives admitted that Wendell Willkie and New York's governor Tom Dewey were still the most popular candidates with most party members in California, but still felt Warren's chances at least for the presidental canndidate's running mate, were strong.

Others, believing that GOP opinion in the state had not jelled yet were in favor of moving more slowly, feeling out sentiment before bringing out a definite campaign for '44.

However, it appeared that it wasn't the party's opinion the assembly felt unsure of, but Warren's own. The governor has not indicated his views of Willkie and Dewey as candidates, and, meanwhile, his statement that he himself would not be a starter in the race still had the ring of truth.

Nearer home, there seems to be no scarcity of potential candidates for Senator Sheridan Downey's seat in the United States Senate, a subject also considered by the GOP assembly in Santa Barbara.

Half a dozen likely political figures have emerged as possible contenders already. None has said flatly that he will run, but on the other hand none has crossed himeslf definitely off the list and most of them have been bidding for publicity with activities not obviously connected with the race but nevertheless designed to attract the public eye.

Four possble candidates spoke at the Santa Barbara meeting: Lieutennt Governor Frederic Houser, Superior Judge Goodwin J. Knight of Los Angeles, State Assembly Speaker Charles Lyon and William Bonelli, a member of the board of equalization from Southern California.

Not present at the meeting but among those most mentioned as likely starters are Dr. Walter F. Dexter, superintendent of public instruction and Justus Craemer, state railroad commissioner.

Among the scix are some vote getters. All but Craemer and Judge Knight now hold political offices representing considerable support at the polls.

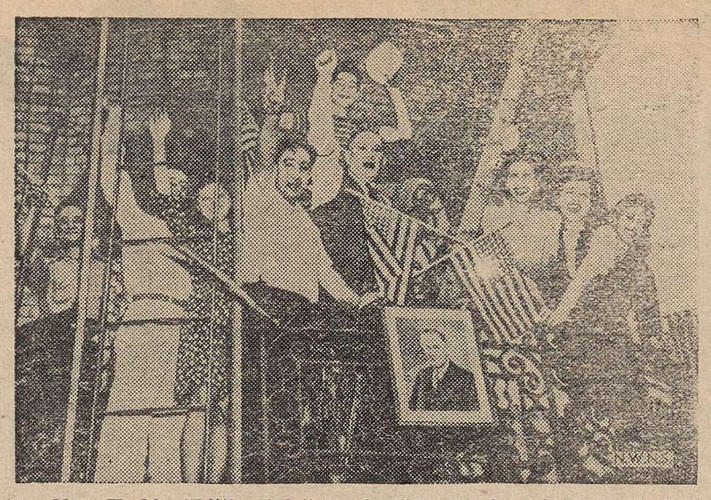
While Houser rode into office last year with less than Warren's overwhelming vote, it remains that he did defeat a strong democrat vote getter in Ellis Patterson. Whether he could do it again however, in a solo race with Downey or Patterson who has been mentioned as a candidate, is questionable.

Bonelli, who has been able to keep himeslf on the board of equalization one of the most popular political posts in the state, might be expected to corner a heavy block of votes, particularly in southern California.

As an assemblyman Lyon represents only a small number of voters, but his political potential is doubtless high, and he might base an appeal for votes on his speedy nd efficient handling of the assembly at the last session.

While not politically spectacular Dexter has gained a solid reputation as an educator, mnged to keep clear of open scraps in the post sometimes favored as a target for critics and undoubtedly could pool a heavy vote throughout the state, even ithout benefit on any well organized machine.

Benito Out—N. Y. Italians Cheer



New York's "Little Italy" went wild with joy at the news that Mussolini had been ousted from the Italian government. This jubilant family is pictured on the fire escape balcony outside their flat with a picture of President Roosevelt on the balcony.

LEGAL NOTICES

NOTICE OF PRIVATE SALE OF REAL ESTATE

No. 85921 Dept. No. 9
IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE CITY AND COUNTY OF SAN FRANCISCO
In the Matter of the Estate of LILLIAN ELLA O'HANRAHAN, Deceased
also doing business under the name and style of SIERRA TAVERN.

Notice is hereby given that the undersigned Administratrix of the Estate of Lillian Ella O'Hanrahan, Deceased, also doing business under the name and style of Sierra Tavern, will sell at private sale, to the highest bidder, for cash, and subject to confirmation by said Superior Court, on Saturday, the 21st day of August, 1943, at the hour of ten o'clock a.m., or after said day, at the law office of Arthur P. Shapro, Esq., 420 Russ Building, San Francisco, California, all the right, title, and interest and estate of said Lillian Ella O'Hanrahan at the time of her death, and all the right, title, and interest that the said estate has, by operation of law, or otherwise, acquired, other than or in addition to the estate of said Lillian Ella O'Hanrahan at the time or her death, in and to that certain real property situate in the Town of Truckee, County of Nevada, State of California, more particularly described as follows:

All of Lots Nos. One (1) and Six (6) and the West Five (5) feet of Lot No. Seven (7) in Block "B" of the Town of Truckee, as said lots and Block are designated upon the official map of the Town of Truckee filed in the office of the County Recorder of Nevada County, California, on July 15, 1890.

Bids or offers are invited for said property and must be in writing and will be received at the law offices of Arthur P. Shapro, Esq., at 420 Russ Building, San Francisco, California, one of the attorneys for said Administratrix, or may be filed with the clerk of the said Superior Court of the State of California, in and for the City and County of San Francisco, or delivered to the said administratrix personally at any time after posting of this notice, and before the making of said sale.

Terms and Condition of Sale: Cash and lawful money of the United States of America, ten per cent of the purchase price to accompany all bids or offers, balance on confirmation of sale by the Court.

Dated: July 30, 1943.

IMPORTANCE OF GOLD MINING IS SEEN BY MAYO

"Gold mining, as well as non-metallic mining, must be 'sold' to the members of Congress and the administrative departments of our national capital if we are to rebabilitate gold mining after the war and develop our mining deposits of strategic minerals during the present conflict," today declared Sentor Jesse Mayo, candidate for Congress at the special election on August 31.

Congress, WPB and the various departments in Washington must be made to understand the vital role that stragetic minerals of the west can play, not only in winning this war, but with their full development also provide employment for thousands of our service men after the war, Senator Mayo said.

"If elected to congress," Mayo continued. 'I shall begin at once a campaign to acquaint the powers that be in Washington of the necessity of building up stockpiles of stagetic minerals in the west and for the encouragement of properties that need financing."

Mayo stated that he would also seek to lift the ban on gold mining in order to allow operators to mine and mill sufficient ore to pay operating expenses.

What You Buy With WAR BONDS

Battle of the Atlantic

A sinking smokestack, a great air bubble, an empty lifeboat, all that is visible of a torpedoed tanker, all that is evident of the hard work, the savings we put into War Bonds to build this tanker, to load it with 50,000 gallons of high octane gas.

Our money is still safe but the tanker is lost forever. Another and another and another must be built to take its place.

The men who sail the seas are giving their lives to win the Battle of the Atlantic. We are asked only to lend our money.

U. S. Treasury Department

A tree is technically defined as a woody plant having one well-defined stem and a more or less definitely formed crown, at least eight feet high and two inches in diameter.

DEER SURVIVES HIT BY TAHOE CAR

TAHOE CITY, Aug. 19.— Mr. and Mrs. Stanley Martin of Tahoe had a unique experience Sunday night at 9:30 while en route home from Reno where they had viisted at the home of Mrs. Martin's parents, Mr. and Mrs. George G. Keith.

Approaching the vicinty of the Gavin house along the Truckee river, they were suddenly startled when a large doe leaped directly from the brush into the path of their car. Although Martin applied the brakes at once it did not prevent the animal from crashing into the machine, badly damaging the radiator. The impact did not kill the deer but stunned her for several moments before she got her second wind and disappeared into the woods. The Martins agreed their trip proved far more expensive than they had anticipated.

—V—

Mr. and Mrs. A. B. Johnson went to their Los Angeles home this week following Johnson's return from the hospital in San Francisco.

—V—

Belated word was received of the death on June 23 at Meridian, Iraho of Mrs. Vera Matchem, 39, wife of Ray Matchem, and former caretakers at the McClatchey estate on Lake Tahoe.

UNIQUE TRIP IS ENJOYED AT LAKE

TAHOE CITY, Aug. 19.— Kathleen and Jack Starratt Friday served as guides to a party of local vactionists bent on having a no-host moonlight picnic barbecue in the mountains.

The party motored as far as the Bud Jones ranch in Squaw Valley where they parked the cars and mounted horses, their destination the famous Five Lakes some distance away. Their dinner menu was tempting and included barbecued steaks, salad and other tasties. Their enthusiasm was unbounded and the trip was a beautiful nd unusual adventure for them all.

In the party were Mrs. Kenneth Foster and son, Kenneth, Mr. and Mrs. Oliver Dibble and daughter, Daphne, Mr. and Mrs. F. L. Follis and son, James, the two little daughters of the R. McLarens, Miss Filmer, daughter of Mr. and Mrs. Coy Filmer and Miss Marian Davies daughter of the R. K. Davies of Rubicon Beach.

HELLERS MOVE TO OWN HOME AT BAY

TAHOE CITY, Aug. 19.—Friends in Tahoe City this week are learning of the good fortune which has come to the Charles Hellers, former residents of Meeks Bay who have been making their home at San Rafael. They have now moved into their lovely new 7-room house situated in that city's nicest residental district, and are preparing to settle down to continued life in the city.

Mrs. Heller reports that one of her greatest delights is the conservatory for rare potted plants many of which have been the gifts of their Tahoe friends. Mr. Heller's health in steadily improving and they are making a ide circle of friends there.

TAHOE LETTER

* * * *

To the Service Men

From SWANEE

Tahoe City, August 15

Dear Tahoeites:

Another glorious weekend with true summer days, nothwithstanding the chill of the evenings. More and more frequently now the hum of outboard motors is heard along the shore of Tahoe, and speed boats too cut their billowy spray daily. Already some of the willows are turning from green to gold and on windy days the unmistakable song of Autumn echoes high above the treetops. Oldtimers still believe winter is destined to come early to these lovely hills and dales this season .. but all hope for one of those rare and beautiful Indian summers.

Our house was a jolly place this weekend with out of town visitors including Sgt. Joseph H. Anderson of Camp Beale and daughter Phyllis and little son of Reno, with other guests on Saturday and Sunday including Captain and Mrs. George Mawdsley of San Francisco. Captain Mawdsley, who by his own request asks that his present rating and employment be skipped, will be remembered by older residents as the last regular skipper of the beloved old steamer, Tahoe, on the lake. They are greatly enjoying renewing old acquaintances during their stay here, a number of parties being planned in their honor.

Proud indeed are Dr. and Mrs. Clark J. Burnham of Berkeley of the showing being made in Uncle Sam's forces by members of their family. Three stalwart sons have added their names to their country's roster, Dr. Clark Burnham, Jr., in the navy and Dr. Dewitt Burnham, both holding ratings of Lt. Commander, the latter somewhere in the South Pacific. Carl Burnham, a Lt. Colonel, is stationed in southern California, while two grandchildren, Sec. Lt. Robert Brewer, 19, has won every honor with his paratroop division in North Carolina. His sister, Betty Brewer is now training at University of California hospital to become a nurse, and nephew Lt. Walter J. Collins is a member of the dentad corps at Letterman Hospital. Dr. Burnham, retired for seven years from active duty in his profession, proved himself a true soldier of the homefront when the boys stepped into uniform, by coming out of retirement and taking over the boys' practice at home where he plans to carry on until their return. We call this wonderful display of service from a typical American family .. one of America's millions who will win this fight for freedom.

From "Somewhere in the Pacific" last week came a friendly letter from Corp. Massimo A. Guenaga now with the U.S. Marines, to Henry Worden, of Ward Creek Camp in the Sunnyside district. It wkas a little unexpected 'thank you' note for the donation of a book which was making the rounds among the boys overseas, and which was finding a warm welcome by all. On the front leaf of the book was stamped the name of the Wordens, donors in a recent victory book drive, and the young man could not resist dropping a few lines to let Worden know just how much good reading material was appreciated by the boys in his outfit. Corp. Guenaga also declared in his letter, that he has visited Tahoe, enjoyed swimming in the lake and remembers having seen Ward Creek Camp in the past.

One lad recently failed to honor the responsibility he undertook when he donned the uniform of the U.S. Marines. He is William F. Flanders who admitted he was a deserter from the marine prison camp at Camp Kearney. He was taken into custody last week at Lake Tahoe by Nevada officers who chased him to and part way around the lake before catching up with him in a car he was alleged to have stolen in San Diego. The boy said he was 17 but appears older and assumed the fantastic name of Bill St. Louis in these parts and attended the Tahoe High School for a short period this summer, his actions arousing suspicion among his classmates during his brief stay. Surprise was small when the news of his arrest was made public.

Mrs. Mary Turnage who is summering at her Lake Forest home with her little daughter, has learned that her husband Clinton, former Tahoe grocer who has been working on government jobs in the far north has received numerous promotions since leaving home. Starting in as an assistant equipment checker, he rose to full charge of equipment and contined on until now he is supervising the installation of commissaries between White Horse and Alaska He reported recently that his district was experiencing their first warm day of the season .. so it looks like cool weather has been the lot most of the norethern Pacific area this year. He plans to continue on his present job until November when he will again return home.

The bonfire party sponsored by ladies of the Tahoe Women's Club on Thursday night on the shoreline of the commons in town, was a big success, according to all reports. It was a heavenly night with almost a full moon shining out across the lake and the warm little breeze blowing from the western hills. The crowd gathered early and the bonfire was lit around nine o'clock as benches were loaned from Tahoe Inn for many visitors to sit upon. It was estimated that well over 200 persons attended during the evening, and a total of $65 was realized from the affair, according to the club's secretary, Mrs. Harry Johanson.

Master of ceermonies at the affair was genial Frank Gaiennie of Truckee who directed the program efficiently and led in the community singing, one of the popular features of the evening. He also recited several appropriate poems by Edgar Guest. A tidy sum was realized by his auctioning off snow-balls, cream puffs, homemade jams and jellies and several cakes. Soft drinks were available and old and young squatted by the fire to roast weiners and marshmallows on long sticks. A highlight of the entertainment was the Indian Lovesong solo, sung by Miss Dorothy Braghetta, a guest of Mrs. Anita Tassano of Truckee. Her lovely voice echoed across the silence of the night, holding the audience spellbound. Others who contribued their talents to the evening's entrtainment were Chester Langenstien, whose ban jo playing and singing delighted all; Miss Sunny Glazko of San Francisco sister of Mrs. Mary Turnage, who sang several songs; James Lyon of Carnelian Bay ho brought along hrs accordion; Slim Gordon of Tahoe Park Campground, who played the harmonica and Miss Shirley Ables, niece of the Norman Mayfields whose Hawaiian dancing in authentic islanr costume in the glow of the campfire was most delightful. Altogether it was a most delightful party and one hich would be welocmed more often by all.

Must leave you again as tempus fugits, but not without the hope that this finds you all in good spirits. We at home pray that your paths be not too rough and that your hearts remain stout. The best of everything from us all.

Ase ver .. withing for Peace and Victory before the end of 1943 ..

Tahoe Briefs

By SWANEE

A. B. Johnson returned from a San Francisco hospital early last week to his home in Tahoe Park, after haveing undergone several weeks of medical treatment. He has lost considerable weight, but was well along the road to improvement.

The D. M. Brodehls of the Bittencourt Tract are again entertaining out of town guests, including their daughter and family, Mr. and Mrs. Clifford Jones and son, Mr. and Mrs. Otto Ehrig of Stockton and Mrs. Edward Brode and baby of Lodi.

Mr. and Mrs. Boyd Mitchell of Lodi were recent guests at the home of Mrs. Mary Turnage of Lake Forest.

Otto Fox and Dr. William Miller of Meeks Bay were among local residents attending the picnic of the Loyalton Lions Club at Sierraville last week.

The lake level on Monday stood at 6228.61 with 462 CSF of water leaving the gates. The temperature on Monday was a few points higher that previous days, standing at a minimum of 40 instead of the more frequent 38.

Members of the Tahoe Gun Club will hold a practice shoot on Sunday atop the hill beyond the golf course at 2 p.m. All members are urged to attend. Practice shooting will continue as long as ammunition is available. Mr. and Mrs. Robert Wallace are next scheduled hosts to the club at their regular meeting on September 3.

Mrs. Eleanor Swanson and Mrs. Gerda Kvistberg of Tahoe were the luncheon guests at the Robert Wallace home in Truckee Thursday of last week.

Mrs. Eearl F. Walker has returned to her home in Timberland after attending the funeral for her father in Wyoming.

Carl Olander, proprietor of popular Forest Inn on Ward Creek, was a business visitor in Sacramento last week.

Vacationing at their Rubicon Beach home are Mrs. R. K. Davies and daughter Marian. Guests re Mr. and Mrs. Oliver Dibble of San Francisco.

Hearts were saddened in the Floyd Carnell family last week when their nine-months old fox terrier dog was stricken ill and died. It was suspected he had either eaten chicken bones which lodged in his throat or had been poisoned.

Tahoe Briefs

The A. M. Andersons in Tahoe City have been given a pair of four-month old shepherd dogs by Bud Jones, local rancher.

News reaches Tahoe this week that the Carl Wheat family re returning to the lake region to make their home once more after having lived in Santa Barbara and Stockton. Local residents will welcome the advent of a good electrician back in their midst.

Mrs. Carl Bechdolt, Jr., and her two children, Sharon and Christine are vacationing in the bay region.

Dr. nd Mrs. William Miller and daughter Margret, prominent Auburn residents are enjoying an extended vacation at their home near the lake in the Meeks Bay region.

The Tahoe Women's Club is holding ing their regular meeting tonight in the local community hall at 8 o'clock. Chairmen of the various picnic committees will make their reports. They include Mrs. Otis Hursey, Mrs. Stanley Martin, Mrs. Nora Hevel and Mrs. Mary Turnage.

The Tahoe Park fire suppression crew was on hand Thursday night at the bonfire with their truck to prevent possble grass fires or other mishaps. They extinguished the bonfire at the conclusion of the program.

The T. E. Anderson speed boat is now at Mayfield's boathouse pier in town undergoing repairs which will again make her seaworthy. The boat sank last week in the vicinity of Crystal Bay because of mechanical difficulties. No one was injured. The Anderson are frequent guests at the lake and hail from Lodi.

—V—

SEPTEMBER 15TH TAX FORMS WILL BE MAILED SOON

The forms for the September 15th filing of estimated income and victory tax for 1943 are expected to be mailed to 1,270,000 federal income taxpayers in northern California between August 15 and 20th.

Harold A. Berliner, collector of internal revenue in announcing this, said, however, that less than half of that number will be required to file the declaration.

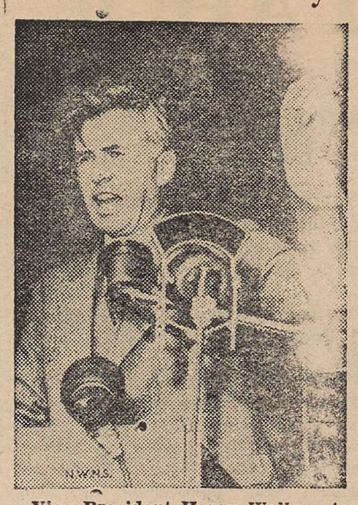
Those who must file the September 15th declaration are persons whose total income is not subject to the witholding tax. This group includes business men, profesisonal people, agricultural workers and domestic servants.

William Desmond, Sacramento division chief of the internal revenue collector's office, said declaration must be filed by single persons who are not subject to the witholding tax if their annual income from salary or wages is $500 or more than $1200 or more if married.

Then too, he said, a declaration must be filed if a person is subject to the withholding tax and the annual income is $2,700 or more for those who are single or $3,500 or more if married.

Farmers do not have to file until December 15th.

'World One Family'



Vice President Henry Wallace is pictured as he told a meeting of civic and labor organizations in Detroit that America's destiny in the coming peace plans calls her to world leadership. He said that this leadership must concern itself with world welfare rather than power politics and that application of the four freedoms must begin at home.

ANY JOB CAN BE MADE INTERESTING

In 1912 a girl up in Winnipeg, Canada, had to get a job. She found one selling candy and cigars in a drug store. She did not like the job, but she knew she didn't dare give it up, so she made a most important decision. She decided that she would make the job interesting!

Clara Stover began to study candy, and the best way to sell it. She learned the whims of customers, and tried to find why one customer liked this particular kind of candy, and the next customer didn't. Then she became interested in the manufacture of candy. She found candy to be a fascinating subject. The business of candy selling behind a drug store counter was no longer drab and dreary.

She learned so much about candy that she and her husband were offered a job in a candy factory where she learned even more.

Ideas of her own developed, and she decided to make and sell her own candy. She moved to Denver and made candy in her home, which was a bungalow. Her husband took samples of it and went out and sold it. She didn't know what to call her candy so she named it "Mrs. Stover's," then one day an idea popped into her head. Since she was making it in a bungalow, why not call it Bungalow candy? And right there the name was born.

Business increased. They moved to Kansas City. And there she has a five-story building completely devoted to the manufacture of her candy. She had seven employees when she started; today she has 375.

Not only that but she has 23 stores scattered over the United States; and, in addition, she has 950 dealers who handle her candy.

Her wholesale mail order business increased also. Today she has the largest mail order candy business in the United States.

What an inspiring story this is! A girl had a dreary job—one that palled on her—but she decided to make it interesting, and succeeded in a way she would never in her wildest imaginings have thought possible. If you find you have a dull job, why don't you decide to make it interesting? Study it, probe into it, get ideas, carry them out. Almost any job in the world can be made interesting if you go about it right. Yet I have letters written me almost daily by people who can see no future whatever in the work they are doing.

JESSE M. MAYO

As YOUR Representative in

CONGRESS

SPECIAL ELECTION AUGUST 31, 1943

OK

After the War--What?

Every patriotic American citizen is doing his or her best to win this war at the earliest possible time. Our Army and Navy are doing a fine job throughout the world. Every indication points to a complete victory on the battlefields. If you and I do our part from now on, victory will come sooner.

Thoughtful patriotic citizens, as well as thoughtful leaders in public life, are also giving attention to the "Home Front" after the war.

Will we have jobs for the returning men and women of our armed forces? Will we have jobs for the thousands of men and women now employed in war industries?

Senator Jesse M. Mayo is chairman of the Senate committee on Postwar Reconstruction appointed last May by the State Senate to work with State, Federal, County and local officers in formulating a gigantic public works program for immediate action at the close of the war. As your congressman, Senator Mayo will be in a better position to render greater aid to your Board of Supervisors, City Councils, School Boards and other public bodies in fostering a sound program.

Senator Mayo also is working with both labor and management of the mining, lumber and agricultural industries of the mountain counties in order to provide jobs in private industry at standard wages now and after the war.

Wise leadership now can make unnecessry a relief program, WPA, SRA, etc., after the war.

Good jobs at standard wages is the answer to postwar reconstruction on the home front.

Ten Years as Assemblyman-Senator

Quoted from a letter . . .

"My conscience hurts me today.

"When I was washing up before getting off the train this morning, I learned that six sailors and three soldiers had sat up all night. These men were making this trip under orders—yet there was no sleeping space available for them.

"When I think of the effort you of Southern Pacific, along with other railroads, are making to care for our service men—and then remember that I obtained a berth that should have gone to a service man—it humiliates me. I was due back for a War Bond meeting today and at the time it seemed important. But compared with taking accommodations away from soldiers and sailors my presence here was highly unessential.

"It has been a good lesson for me. Hereafter I shall travel only when I know I'm not depriving service men of sleeping space . . ."

How's YOUR conscience today?

The letter quoted here came from a western newspaper editor and publisher. This man has a conscience that can't be lulled to sleep by easy self-reassurances.

We hope many other prospective travelers will listen to the "still small voice" of their conscience when it asks questions like these:

How much business and how much pleasure are involved in the train trip I plan? Is it really important for me to visit those relatives back East this war year? Couldn't I get just as much rest and relaxation a little closer to home?

Today the railroad is hard-pressed to find space for essential travelers: People whose trip must be made to keep business and war production going . . . Service men on well-deserved furloughs, possibly the last before combat duty . . . Parents going to visit their son when the latter can't get away from his post. When people travel for pleasure, or other non-essential reasons, they prevent such deserving travelers from getting on the train. Yes, we sincerely mean it when we say: "Don't take the train unless your trip is really NECESSARY."

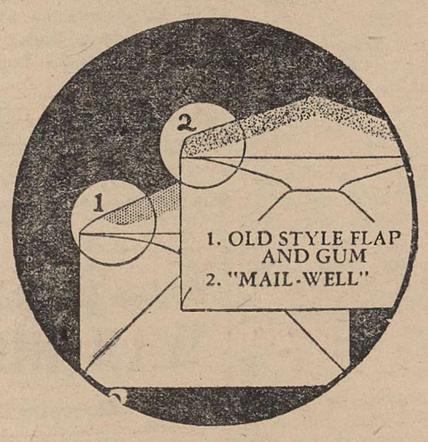
COMPARE

a Mail-Well Envelope with any Envelope and you will readily see the superiority of Mail-Well construction



● Notice in the above illustration the entirely different construction of the two envelope flaps. Figure 1 shows the old style flap. Figure 2 shows the "Mail-Well" flap which has been designed to protect the contents of the envelope. The outstanding advantages of this special high shoulder flap are:

It allows adequate room for heavy gumming at the corners, the envelope's weakest point, where added protection is most needed.*

It assures safe delivery of the contents even when stuffed to capacity.

It gives easy access to the letter opener although sealed nearly airtight.

You can best judge the merits when you have a Mail-Well and any other type envelope in your hands. Let us show you samples—a comparison will readily convince you of the added protection given your mail by Mail-Well envelopes. You will be under no obligation to order.

**All envelopes ride on the flap edge when going through the sorting and cancelling machines at the Post Office.*

BAKERIES, CANDY STORES TO RECEIVE MORE SUGAR

Price Administrator Prentiss Brown has disclosed a 10 per cent increase in sugar rationing for commercial users which means more bakery goods, candy and soft drinks, will be put into effect within a few days.

He indicated that the move might be a forerunner of a general lifting of sugar rationing for all consumers.

Dated: July 31st, 1943.

R. N. McCORMACK,
County Clerk, Nevada County, California.

FDR'S BEWILDERMENT

In his last radio talk, the President said:

"I confess that I myself am sometimes bewildered by conflicting statements that I see in the press. One day I read an 'authoritative' statement that we shall win the war this year, 1943—and the next day comes another statement equally 'authoritative' that the war will still be going on in 1949."

The President could have given plenty of additional examples of this confusion.

But it should be remembered that the newspaper reporters do not make up these conflicting statements. They merely do an honest reporting job of telling what those in power in Washington have to say. It is discouraging to the press to have to report one day that gasoline rationing will be relaxed and the next day that it will be tightened. But it is the duty of the press to publish both reports if both come [illegible] supposed to be in authority.

[illegible]hat confusion in newspaper [illegible]day that Washington officials [illegible]each an accord on problems [illegible]c.

[illegible]NEEDED

[illegible]or cities, and among [illegible] committees and or- [illegible]complicated subject [illegible]win out and how the [illegible]d is still a question, [illegible]a notable absence [illegible]al areas.

[illegible]of the nation may [illegible] that is set up be- [illegible]e government and [illegible]ked out to give farm- [illegible]reasonable profit the [illegible]ll be lessened.

[illegible]nesses in rural areas, [illegible] determining post-war [illegible]ive more thought than [illegible]lem of what they want [illegible]ect after the war.

FEDERAL MONEY FOR ARMY ROAD DAMAGE MAY BE HAD

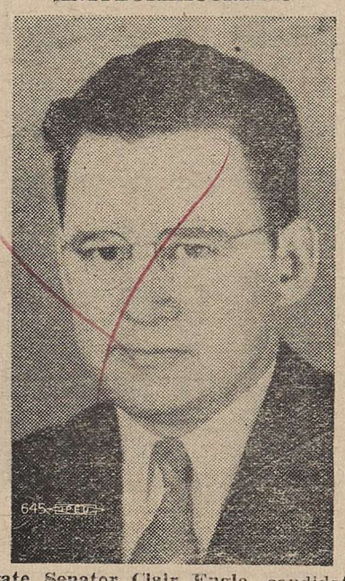
SAN FRANCISCO, Aug 19.—Means whereby states, counties and cities may be reimbursed for damage to their road systems, caused by operations of the United States government incidental to the war, are provided in HB 2798, recently passed by congress and signed by the president.

An analysis of this and other provisions of the bill are set forth in a study just completed by the Transportation Department of the California State Chamber of Commerce.

Under the bill, California federal aid apportionments totalling $3,770,-,996 will be available for future obligations and for engineering and planning for post ar highway projects. The measure further provides that costs of rights of way may be included.

Political Advertisment

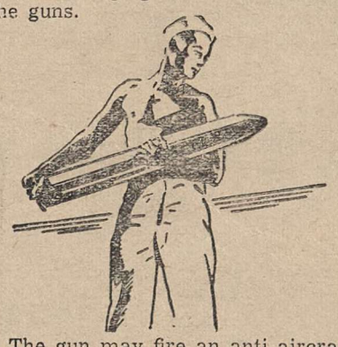
ANTI-BUREAUCRATIC



State Senator Clair Engle, candidate for congress at the special election to be held August 31, whose platform strongly opposes bureaucratic centralization of goverment and urges early return of states and counties to their traditional roles in local government.

What You Buy With
WAR BONDS
Powder Monkey

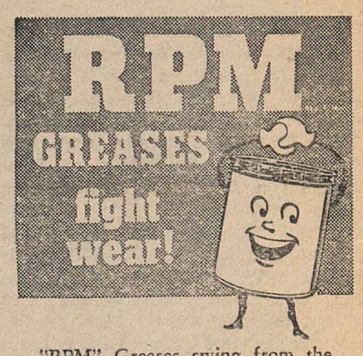
On board ship and in the artillery their buddies call them "powder monkeys." Not disrespectful, just a personal, intimate term between friends. Civilians call them gun crews. During a battle the crews of "powder monkeys" must work like trojans bringing the ammunition to the guns.



The gun may fire an anti aircraft .50 calibre shell or a broadside from the 16 inch guns of a great battleship, but in either event the "powder monkey" must pass millions of dollars' worth of ammunition to make the gun effective, and your savings in War Bonds are necessary to supply the financial ammunition that provides the shells.

U. S. Treasury Department

A recent study disclosed 456 alien plant species were growing without cultivation in California, many of them pernicious weeds.



"RPM" Greases swing from the hip in the fight of bearings against speed, pressure and heat.

RPM Cup and RPM Chassis Grease. For dependable point-of-wear protection, won't back away from heat or pressure.

RPM Gear Oil. An uncompounded superior gear oil for transmissions and final drives.

RPM Wheel Bearing Grease. Assures proper lubrication in heat or cold, protects bearings under heavy loads.

RPM Tractor Roller Lubricant. Stays put on tractor bearings, seals them against dirt and water.

Elect JESSE M. MAYO
to Congress

1. Since 1934 the mining industry has been saved more than $1,5000.000 by Assembly Bill No. 2263, sponsored by Senator Mayo. This bill reduced mine compensation rates by 50 per cent.
2. During the 1943 session just closed, another Mayo bill aided the mining industry by permitting moratoriums on mining properties closed by WPB order.
3. In 1935 Mayo caused defeat of an administration-sponsored bill which would have placed a three per cent severance tax on gold and non-metallic minerals.

(These are but three examples of the many direct aids given the mining industry by Senator Jesse M. May.)
